Description :

PDF-26736 | This is one of the fundamental documents of our time, a period epitomized by the concepts of 'information' and 'communications'. Norbert Wiener, a child prodigy and a great mathematician, coined the term 'cybernetics' to characterize a very general science of 'control and communication in the animal and machine'. It brought together ideas from engineering, the study of the nervous system and stati... *The Human Use of Human Beings: Cybernetics and Society*
