Description :

PDF-a2ad0 | Insects have inspired fear, fascination, and enlightenment for centuries. They are capable of incredibly complex behavior, even with brains often the size of a poppy seed. How do they accomplish feats that look like human activity— personality, language, childcare—with completely different pathways from our own? What is going on inside the mind of those ants that march like boot-camp graduates... *Sex on Six Legs: Lessons on Life, Love, and Language from the Insect World*
